1. BC: Biological and Chemical

Release Date: 03-08-2013Open Date: 05-11-2013Due Date: 06-11-2013Close Date: 06-11-2013

The Biological and Chemical Technologies (BC) topic addresses innovation in the life sciences and chemical areas including Biological Technologies, Biomedical Technologies, Environmental Technologies, and Chemical Technologies. Biological Technologies includes the subtopic areas of research tools, bioinstrumentation, biosensors, computational biology and bioinformatics, synthetic biology and metab ...

SBIR National Science Foundation

2. EI: Electronics, Information and Communication Technologies

Release Date: 03-08-2013Open Date: 05-11-2013Due Date: 06-11-2013Close Date: 06-11-2013

The NSF SBIR Program conceptualizes Electronics, Information and Communication Technologies in the form of a five-layer stack. Each layer of the stack builds upon the layer(s) below and supports the layer(s) above. At the foundation of this stack are devices. Devices (ED) are the building blocks for Components (EC) that are assembled into Systems (ES) built for Applications (IA) that are employed ...

3. EA: Education Applications

Release Date: 03-08-2013Open Date: 05-11-2013Due Date: 06-11-2013Close Date: 06-11-2013

The Education Application (EA) topic addresses the challenges of advancing STEM (science, technology, engineering, and mathematics) education for all American students, to nurture innovation, and to ensure the long-term economic prosperity of the Nation. The urgency of this task is underscored by the need to ensure that the United States continues to excel in science, technology, and innovation in ...

SBIR National Science Foundation

4. NM: Nanotechnology, Advanced Materials, and Manufacturing

Release Date: 03-08-2013Open Date: 05-11-2013Due Date: 06-11-2013Close Date: 06-11-2013

The Nanotechnology, Advanced Materials and Manufacturing (NM) topic addresses innovations and development of new materials, devices, machines, structures and manufacturing processes for the advancement of the competitive nature and state of the art for U.S. industry. NM includes materials and manufacturing technologies such as electronic materials and processes, high-temperature materials, structu ...

SBIR National Science Foundation

5. BC: Biological and Chemical

Release Date: 03-08-2013Open Date: 05-13-2013Due Date: 06-13-2013Close Date: 06-13-2013

The Biological and Chemical Technologies (BC) topic addresses innovation in the life sciences and chemical areas including Biological Technologies, Biomedical Technologies, Environmental Technologies, and Chemical Technologies. Biological Technologies includes the subtopic areas of research tools, bioinstrumentation, biosensors, computational biology and bioinformatics, synthetic biology and metab ...

9. F: People Prosperity and the Planet (P3) Special Funding Opportunity

Release Date: 06-27-2013Open Date: 06-27-2013Due Date: 08-13-2013Close Date: 08-13-2013

In order to achieve environmental sustainability and expand on the successes of previously funded P3 research projects (2004-2012), EPA plans to leverage the sustainable solutions developed by P3 awardees with the commercial focus of SBIR. Specifically, a special funding opportunity (SFO) (which is in addition to the funding opportunity above) has been created to support P3 teams that have f ...
